

GLOBAL  
Prosperity and Peace  
INITIATIVE

[www.ProspertyandPeace.org](http://www.ProspertyandPeace.org)

Mission: *“to increase the level of love, prosperity, and peace on Earth.”*

- **The Global Prosperity and Peace Initiative (GPPI) was launched at the World Parliament on Spirituality on November 17 – 20, 2016, in Salt Lake City, Utah, USA.** Participants, speakers, and performers from 72 nations attended the official launch of this Global Initiative.
- **Our teams are well organized.** The Executive Team, Board of Directors, Primary Team, Regional Directors, National Peace Ambassadors, and other participants help implement the Initiative. Hundreds of volunteers worldwide are currently participating. We stay connected using Zoom video calls, emails, Facebook and WhatsApp.
- **On (and around) International Peace Day, Sept 21, we present Prosperity and Peace Summits in many nations.** Our National Peace Ambassadors collaborate with organizations and individuals to present education-focused Summits.
- **In 2017, GPPI National Peace Ambassadors in 80 nations presented 98 Peace Summits.**
- **In 2018-2019, in collaboration with Rotary International and other organizations worldwide, we will present over 30,000 Peace Programs in 196 nations.**
- **This Initiative offers education-based solutions for 11 of the 17 United Nations Sustainable Development Goals.** ([www.ProspertyandPeace.org](http://www.ProspertyandPeace.org) – see video on the homepage)
- **GPPI trainings, courses, programs, books, modules (online and offline) are all focused on strengthening participants in every area of their lives: mentally; physically, emotionally; socially; spiritually (all inclusive); financially; and in all their relationships.** Courses and

lessons will be translated and customized, then taught live and online in collaboration with local leaders, individuals, organizations, businesses, schools, and parents in every nation. Curriculum includes self-development courses, value lessons and peace-building activities, resources to help reduce conflict, modules on how to start and grow businesses, and much more.

- **GPPI Youth Programs help further our mission by teaching leadership, confidence, integrity, entrepreneurship and many character-strengthening values to youth worldwide.** One of our primary strategies is to empower youth to prevent and help resolve social issues such as bullying, inclusivity, drug abuse, and suicide and to help them become tomorrow's leaders who understand individual and social responsibility. We spotlight challenges youth face today and we provide value-based solutions.
- **Currently, GPPI Peace Lessons are being presented in homes and schools worldwide, in four languages (English, Arabic, French, Spanish).** The Peace Lessons are free and downloadable from our website. (See [www.ProspertyandPeace.org](http://www.ProspertyandPeace.org) – Peace Lessons)
- **The Women of the Middle East Network (W.O.M.E.N.) was officially launched in January, 2018, in Israel.** This education-based organization, which is part of GPPI, has our same mission. Women from Israel, Palestine, and Jordan are the first to participate in this education-based organization. For details, see [www.WomenoftheMiddleEast.org](http://www.WomenoftheMiddleEast.org).
